Announcing Justin Langer as the Brand Ambassador of NiviCap

Bengaluru, (City Times): Guided by its vision — "Fast. Fair. Family Approved. Your academic dreams in Australia without financial roadblocks", NiviCap marks a new era in the education financing ecosystem. Australia continues to stand tall as the most preferred international education destination for Indian students, celebrated for its world-class universities, multicultural inclusivity, and post-study work opportunities.

In an initiative that deepens the education partnership between Australia and India, the Australian Trade and Investment Commission (Austrade), Australia's national trade and investment promotion agency, supported the launch event of NiviCap.

The launch event was graced by Mr. Justin Langer, the renowned Australian

cricket coach and former cricketer, who officially unveiled the NiviCap app. The ceremony also marked the announcement of Justin Langer as a Brand Ambassador for NiviCap.

Mr. Karthik Srinivasan, Founder, NiviCap, shared, "As an Indian-born Australian, I've lived the same journey that thousands of students take every year, filled with excitement, but also anxiety. I know firsthand how overwhelming it can be to handle documentation, manage finances across countries, and deal with the emotional toll of being far from home. I've seen how these challenges can make dreams feel distant.

Expressing his enthusiasm, Mr. Justin Langer, Brand Ambassador and former Australian cricket coach, said, "As both a father and a coach, I understand the emotions that come with watching young people chase big dreams away from home. India and Australia share a bond that goes beyond sport, it's built on trust, respect, and shared ambition. NiviCap captures that beautifully. To me, NiviCap is like a great coach, steady, reliable, and always there when the pressure is on. It gives students the confidence to perform and parents the reassurance that their children are in safe hands. That's why I'm proud to stand with a brand that champions both ambition and care."
